Masters of Computer Applications (IMCOST, Thane Wagle Estate).

Employment Status:- French Teacher (IRA GLOBAL Cambridge Education)

Objective

To grow in a competitive environment with high spirits of technical excellence, standards of quality and team work. To acquire a position that affords me the opportunity to bring my technical expertise, problem solving skills and willingness to learn to make an organization successful. Very passionate about counselling and helping an individual grow. Very passionate about teaching and on going learning from the system.

Current Role Description

I have been teaching French at IRA Global Cambridge School since Sep 2016. Apart from that my career has been into specially counselling and teaching arena.

Work Experience

Prior to IRA GLOBAL, I have been associated with TAJ Eduglobe Ltd as a Partner Relationship Manager since April 2016. The responsibilities even involve Counselling parents and kids for exploring their inborn potentials.

Have worked with an educational startup (Making Champs) as a content writer and an instructor. Been a speech and drama teacher for various schools as a part of ALL FOR KIDS program.

Being a Software Engineer by profession, my IT experience was primarily with an IT giant Tata Consultancy Services.

Sound IT experience of development, manual testing, preparation of user guides, documentation, configuration files, management documentation, design documents, control documents. Responsible for testing as well as development of Core Banking functions, Financial domain applications. Comfortable to work in a team and as an individual.

Project Contributions/Achievements
